

Day and Night Sky

Sing to the tune of "The Farmer in the Dell"

The day sky is light.
The day sky is light.
What will we find when we look up?
The day sky is light.

We can see the sun.
We can see the sun.
The sun is in the day sky.
We can see the sun.

The day sky is light.
The day sky is light.
What will we find when we look up?
The day sky is light.

We can see the clouds.
We can see the clouds.
The clouds are in the day sky.
We can see the clouds.

The night sky is dark.
The night sky is dark.
What will we find when we look up?
The night sky is dark.

We can see the moon.
We can see the moon.
The moon is in the night sky.
We can see the moon.

The night sky is dark.
The night sky is dark.
What will we find when we look up?
The night sky is dark.

We can see the stars.
We can see the stars.
The stars are in the night sky.
We can see the stars.

The night sky is dark.
The night sky is dark.
What will we find when we look up?
The night sky is dark.

We can see the planets.
We can see the planets.
The planets are in the night sky.
We can see the planets.
