

Cell Vocabulary Cards

Duplicate one set of cards for each group of students. Cut the vocabulary words and definitions into individual cards. Students then match the word with its definition.

Cell	The basic unit of all living things
Cytoplasm	The clear jellylike material that is inside the cell membrane
Membrane	The outer covering of the cell
Nucleus	The largest organelle in a cell - controls the cell's actions
Organelles	Separate compartments in the cytoplasm that hold parts of the cell

Waste	Not usable
Urea	Waste produced by the body cells as they use food
