

# Excretory (Urinary) System Graphic

## Excretory/Urinary System Comprehension Questions

(to be used after the reading, with the Excretory System Graphic)

1. What are the two names for the liquid waste removal system?  
**Excretory and urinary**
2. What are the four main parts of the excretory system? **Kidneys, urethers, bladder, urethra**
3. What connects the kidneys to the bladder? **Urethers**
4. Why are there two urethers? **Each kidney has a urether to lead to the bladder.**
5. Why is there only one urethra? **We have only one bladder and one way for the urine to leave the body.**
6. Which part of the excretory system changes size? **The bladder gets larger as it fills with urine. It then gets smaller again as the urine is removed.**
7. Is the excretory/urinary system the same for boys and girls? **Yes. Just like all the other systems we have studied, the excretory/urinary system is the same for both boys and girls.**
