OBSERVATIONS

Stimulus	Word Set #1			Word Set #2		
Response	Trial 1 (sec)	Trial 2 (sec)	Trial 3 (sec)	Trial 1 (sec)	Trial 2 (sec)	Trial 3 (sec)
Student 1						
Student 2						

CONCLUSION

1. Compare the results of Word Set #1 to Word Set #2.
2. How do words influence what you see?
3. How does the brain respond to a stimulus that is a change from what it is accustomed to?
4. Which words tripped you up? Did the color of the word make a difference?
5. Did it get harder or easier each time?
