

Name \_\_\_\_\_

Directions:

- \* Draw arrows to represent where the sun's rays are coming from
- \* Label the Earth
- \* Label each phase and fill in the circle to show how each phase would look in the sky

Name \_\_\_\_\_

Directions:

- \* Draw arrows to represent where the sun's rays are coming from
- \* Label the Earth
- \* Label each phase and fill in the circle to show how each phase would look in the sky

Teacher Note:  
Remember the new moon is always  
between the sun and earth, so your students  
rotation may be different from this one
