

# RUBRIC FOR DYNAMITE DIMES ORAL ACTIVITY

A score of excellent is given to those students who exhibit a clear understanding that money (dimes) must be given in exchange for goods (dessert). Those students are able to correctly and clearly make up the number story and count their dimes accurately.

A score of good is given to those students who exhibit an overall understanding of how money (dimes) is given in exchange for goods (desserts). These students are able to make up an understandable story involving money but may make a minor mistake in counting the dimes.

A score of poor is given to those students who exhibit no understanding of the concepts of exchanging goods and services. These students are unable to make up a number story involving dimes and desserts and express their ideas poorly and inaccurately count their change.
