Spending the State's Money

Use the information from the Governor's Recommended Budget table to solve each problem below.

1. Mrs. May is looking for work. She thinks she can get a job working for the state. Which state agency employs the most workers?

How many does it employ?

2. My dad and uncle were in the US Army. That makes them veterans. What agency do veterans go to for help?

How much money is in the Governor's budget for veterans?

3. Our school is over crowded. We need to build a new school nearby. Money for a new school comes from the Education budget. How much did the Governor recommend for the Education budget?

4. Caleb lives on a dirt road. When it rains, the road is hard to drive on. He asked the Transportation agency for money to pave his road. How much money is in the Governor's budget for Transportation?

5. Mrs. May sees that there is no chance she will get a job with some state agencies. Which agencies will get no money and no positions if the Governor's recommendations are approved?
