

Animal Cell Parts RAFT

ANIMAL CELL RAFT

ROLE: Mommy or Daddy animal cell
AUDIENCE: your baby cell
FORMAT: informative talk
TOPIC: explain the structures found in them and each part's function

Write a one to two page story where you are the parent cell and you are talking to your child cell about all the parts you two are made up of. Please be creative and have fun developing your characters but make sure to cover the necessary information!

Checklist:

- _____ I've included the nucleus and its structures and function.
- _____ I've included the ribosome and its structure and function.
- _____ I've included the endoplasmic reticulum and its structures and function.
- _____ I've included the Golgi apparatus and its structure and function.
- _____ I've included the cell membrane and its structures and function.

*Remember to include membranes, folds, relative size and number of organelle in the cell along with the general location of the organelle in the cell!!
